

# ZACK WOODS HERB FARM

## Dried & Fresh Bulk Herbs

Herbs can be purchased in either dried or fresh quantities. The prices listed below are for 1 lb. amounts of dried herb (except where noted). Freshly harvested, iced packed herbs are available but require a phone consultation. Please call for availability and prices (802)-888-7278 or e-mail us at zackwoods@pshift.com.

Also, please note that because we harvest when the plants are at their most potent, some herbs may be ordered early in the season but will not be shipped out until later in the summer or fall. We are a small family farm and therefore, do not warehouse large quantities

of herbs. We will make every attempt to reserve herbs at a customer's request and encourage everyone to order early!

Please contact us if you are looking for a specific herb that is not on the list.

2009 Spring/Summer Prices. Availability and prices are subject to change.

All Herbs are Organically Grown or \*wh – Wild Harvested on our land

Common Name	Scientific Name	Dried Price/lb.	Fresh Price/lb.	Live Plants
